Columbia West Properties Launches Pineapple Hospitality

Columbia West Properties (CWP), a property management and development business, has launched Pineapple Hospitality, a new hospitality management division of the company that will manage its portfolio of hospitality properties, including four hotels in Seattle, outside of its headquarters in Bellevue, WA.

Designed to align services, including sales, reservations, guest amenities and package promotions, the division will oversee The Maxwell Hotel, Hotel FIVE, Watertown and University Inn.

“For centuries, the pineapple has been a symbol of hospitality, and we’re pleased to introduce our community to a new level of hospitality and service,” said Michelle Forman Barnet, president and COO of CWP.
