Staypineapple is unscripted, unassuming and under the impression that saying “please” and “thank you” the good old-fashioned way isn’t a novel idea. Committed to redefining hospitality, Staypineapple creates a unique and fun environment at each of its eight hotel locations. Staypineapple is founded on catering to guests through strategic placement of hotels, the ability to surprise and delight customers, a luxurious bedding experience, locally inspired food and a playful demeanor.

### **The Naked Experience**

The Naked Experience, which redefines hospitality by inviting guests to fall “in sleep” when staying with Staypineapple and immerse themselves into an over-the-top bedding experience offered at all hotel locations. The Naked Experience was developed by Pineapple Hospitality Company in response to customer needs and comfort. The individual duvet covers are wrapped around extravagant beds so no one can hog the covers. Comfort pillows and luxurious sheets invite guests to experience the feeling of sleeping on a cloud. Extremely plush signature bathrobes await each guest daily to bring that day-spa feeling to the comfort of each individual room. The Naked Experience is topped off with complimentary slippers, making it easy for guests to lay back and kick their feet up at the end of the day.
