STAYPINEAPPLE REDEFINES HOSPITALITY WITH NEW STREAMING AND SNACKING OPTIONS

Guests can now stream with Chromecast while munching on Snack Box 2.0

SEATTLE – (March 28, 2018) – <u>Staypineapple</u>, known for its fun and thoughtful approach to hospitality, is extending its amenities by introducing Streampineapple and the Snack Box 2.0. Guests can now watch their favorite shows and enjoy salty and sweet bites from the convenience of their hotel room.

All eight Staypineapple hotels are now offering Streampineapple using <u>Chromecast</u>, allowing guests to connect their personal devices to the hotel room television. Chromecast, developed by Google, lets guests stream both audio and video content. This includes binging on Netflix shows and playing phone apps, allowing guests to stay entertained with their own technology on the big screen.

Staypineapple has continued to provide their guests with <u>afternoon delights</u> and <u>anytime munchies</u>, and is now introducing the Snack Box 2.0. The new snack boxes include unique items selected by each hotel. Guests can grab the new and improved snack box and munch away as they stream their favorite series.

There is no better way for guests to stay entertained and enjoy their favorite snacks than relaxing in style with Staypineapple signature robes. Staypineapple also provides individual duvets and oversized soft and fluffy towels, which is part of Staypineapple's <u>Naked Experience</u>. The Naked Experience is all about feeling as secure and uninhibited as if you were in your own home, and now guests can feel this way while streaming their favorite shows and enjoying in-room snacks.
