

## **Staypineapple Introduces A New Way To Book Hotel Stays**

*Staypineapple introduces CORE Passport, allowing guests to lock in future hotel stays at a fixed price, and save hundreds of dollars.*

BELLEVUE, Wash. ([PRWEB](#)) March 18, 2021 -- [Staypineapple](#) hotels are re-defining hospitality by offering guests the ability to buy their newly unveiled [CORE Passport](#) that locks in pricing on future hotel nights with travel flexibility, location choice, and ease of use. This previously unheard of offering comes at a time when many American travelers are looking for flexibility and eager to plan for future travel. With locations in top destinations such as New York, Boston, San Francisco, Portland, Seattle, Chicago, and San Diego. Staypineapple's CORE Passport is a great opportunity for travelers to plan for the future, book now, and save in the process.

While traditional hotel gift cards or certificates are often set for a specific dollar value that does not account for price fluctuations based on date and demand, CORE Passport programming gives guests peace of mind that their rate will stay the same with no black-out dates.

The CORE Passport's introductory pricing offers buyers savings of hundreds of dollars off published rates with no black-out dates. Guests can purchase a CORE Passport for \$550 which includes 5 nights per year or \$1000 which includes 10 nights.

"It may seem just a little too good to be true to stay 5 or 10 nights in cities like New York, Chicago, and San Francisco at these prices. This is a great way to lock in rates for future travel," says Sharon Andrade, Vice President of Sales for Staypineapple.

The CORE Passport comes with plenty of great perks like waived amenity fees which are a savings of \$15 to \$30 per night. With the annual passport, purchasers have 365 days to take advantage of these special savings to plan their next vacation or work trip.
